

## November 2024 BOM

Ornament block - 10½” x 10½”

Background fabric: white, ivory, tone on tone, small print or sparkle fabric  
Cut your background fabric 11½” x 11½” to allow for shrinkage during the applique process

I used a tearaway on the back of the block when I was appliqueing it onto the background.

Use traditional colors or something fun

One of my samples has pinks, teals and purples. The other sample has traditional colors, green, red, and gold. The tops of the ornaments should be silver, gray, gold to depict metal or use a metallic cotton fabric. The small ornament could have some ric rac on the diagonal (see samples). Ribbon could be another idea. Use your imagination for that. I put both of them on one background block. Be sure to “hang” them with a ribbon up to the top of the block. You could put two of the same ornaments on one background block or ??? Have fun with this final block of the month. There will also be a bonus block if you are so inclined. You will receive a ticket for each completed block you turn in. Before the program, the winning ticket will be pulled. Good Luck !!
