

September 2024 BOM

Card Trick 12½” x 12½”

For the Background:

White, cream, ivory, light tan tone on tone or small print. You will need two 5” squares of your background, cut once diagonally, making 4 triangles and one 5½” square cut diagonally twice, making 4 smaller triangles.

For the “Card” colors:

Autumn colors such as **orange, red, brown, gold, green, dark tan, etc.** You will need one 5” square of each color cut diagonally once, making two triangles and one 5½” square cut diagonally twice, making four smaller triangles.

Looking at the diagram, sew together a larger background triangle to one of each of your large colored triangles. Press either open or to the dark side. Square up to 4½”.

Sew together a smaller background triangle to one of each of your smaller colored triangles. Press open or press to the dark side. Then match them with the larger colored triangles and sew together. Press again and square up to 4½”.

Take one each of your smaller colored triangles and sew all together, being careful to refer to this diagram for placement. Press either to one side or open. Square up to 4½”.

After all of the squares have been sewn together, pressed and squared up, then refer to the diagram and sew together, making the final block. Square up to 12½” x 12½”.

Bring all the completed blocks to the October meeting and get a ticket for each one that you turn in. Before the program starts, there will be a drawing and someone will win all of them. You might be the lucky winner. Good Luck !
